Letter Of Recommendation

Regarding: Gary Cools

Dear To Whom It May Concern,

I write this letter with regards to Gary Cools. I have known Gary since he first became a practitioner at Evergreen Center For Integrative Health five years ago. During this time, I have had an opportunity to work with Gary collaboratively on many patients with multiple problems. This has been a very fruitful relationship in terms of improved patient care, as well as my own understanding of how to integrate various modalities into the care of my patients.

Gary is an extremely bright and energetic practitioner. He aggressively researches new information, and may be one of the best I have ever seen at this. His approach to patients is very compassionate, and he teaches constantly so the patient may take home with them ways to care for themselves as well. He has interacted well with the staff in my office, and actually cares for a number of them. I have been treated myself by Gary with good results. Gary is a true team player who enjoys sharing information and ideas in an open and friendly way.

In summary, I can, without hesitation, recommend Gary Cools. He is an excellent practitioner and brings many assets with him. He is an interesting and intelligent person who holds himself to a high standard.

If you have any questions, I would be glad to provide you the answers. Please do not hesitate to contact me at (231) 271-5990.

Sincerely,

Phillip W. Siemer, M. D.
